GEAR

Big skillet · Foil · Small bowls for the taco bar

🔥 Let's cook

1. Set out the taco bar: cheese, lettuce, sour cream, salsa, limes cut in wedges. Warm the oven to 200°F for the tortillas. 🧒 Kids can do this
2. Heat the oil in a big skillet over medium-high until it shimmers. Add the turkey, press it flat, and leave it alone for 3–4 minutes so the bottom browns. ⏱️ 4 min
3. Break it into small crumbles and cook until no pink is left, about 3 minutes more. ⏱️ 3 min
4. Stir in the taco seasoning, the water and ¼ cup taco sauce. Simmer until it's saucy and glossy, not soupy. ⏱️ 4 min
5. Stir the black beans into the meat (or warm them in a small pot for anyone who wants them on the side). Squeeze in half a lime and taste. 🧒 Kids can do this
6. Wrap the tortillas in a damp paper towel, then foil, and warm them in the oven 10 minutes (or char each one 15 seconds over a gas flame). ⏱️ 10 min
7. Everyone builds their own. Leftover meat goes in a container for tomorrow's lunch before seconds start.

CHEF'S SECRET

Don't stir the turkey for the first 3–4 minutes. Lean turkey has little fat, so browning is where all the flavor comes from.
