- ▢ **1 tray** Creminelli pepperoni

⚡ **First:** Water on to boil and oven to 400°F.

GEAR

Big pot · Colander · 9×13 baking dish

🔥 Let's cook

1. Oven to 400°F. Boil a big pot of well-salted water.
2. Cook the fusilli 2 minutes less than the box says (it finishes in the oven). Save ½ cup pasta water, then drain. ⏱️ 9 min
3. Back in the pot, stir the pasta with the marinara, the pasta water, oregano, garlic powder, half the parmesan and 1 cup mozzarella. 🧒 Kids can do this
4. Pour into a 9×13 dish. Top with the rest of the mozzarella. 🧒 Kids can do this
5. Lay the pepperoni over the top and finish with parmesan. 🧒 Kids can do this
6. Bake until bubbling and the pepperoni curls and crisps. ⏱️ 18–20 min
7. Rest 5 minutes before scooping.

👨‍🍳 CHEF'S SECRET

Underboil the pasta by 2 minutes and add a splash of pasta water. The noodles soak up sauce in the oven instead of turning mushy and dry.
