GEAR

Big skillet or griddle · Sharp knife · Sturdy spatula

🔥 Let's cook

1. Freeze the ribeye 30–40 minutes so it firms up, then slice it as thin as you can against the grain. ⏱️ 40 min
2. Cook the onions (and pepper) in butter and a little oil over medium until soft and sweet. Set aside. ⏱️ 10 min
3. Split the rolls, not all the way through, and toast them cut side down in the pan. 🧒 Kids can do this
4. Turn the heat to high. Add oil, then the steak in one layer. Season with salt and pepper; sear 1 minute, then chop and toss with a spatula until just cooked. ⏱️ 3 min
5. Mix the onions back in and divide into 4 piles. Lay 2 slices of cheese on each pile and let it melt, 30 seconds.
6. Put a roll face down over each pile, slide the spatula under and flip it into the roll. 🧒 Kids can do this

CHEF'S SECRET

Partly freeze the ribeye before slicing. It's the only way to get paper-thin shavings at home, and thin is what makes it a real cheesesteak.

DINNER · FLIP SIDE

Philly Cheesesteaks

👩‍🍳 Kitchen crew: kid jobs

- ☐ Peel the onions
- ☐ Lay the cheese slices on the piles
- ☐ Toast the rolls
- ☐ Set out ketchup, hot peppers and pickles

Knives, the stove and the oven: a grown-up stays right there. Steps marked 🧒 **Kids can do this** on the front are theirs to own.

⏰ MAKE IT AHEAD

Slice the steak in the morning and fridge it; cook the onions ahead too.

🥡 LEFTOVERS

Best fresh. Leftover meat and onions make a great cheesesteak quesadilla.

🔁 SWAP IT

- Provolone or Cheez Whiz instead of American
- Add mushrooms with the onions
- Sirloin is cheaper than ribeye

🍽️ SERVE IT WITH

Fries or tater tots

⏱️ Game plan: everything lands at once
