GEAR

🔥 Let's cook

1. Oven to 250°F to keep the finished ones warm. Put a sheet pan inside.
2. Lay out the tortillas. Sprinkle cheese over half of each, edge to edge, then fold over. 🧒 Kids can do this
3. Melt a little butter in a big skillet over medium. ⏱️ 2 min
4. Cook 2–3 at a time, pressing down with a spatula, until golden and the cheese is melted. ⏱️ 3 min a side
5. Move finished ones to the warm oven while you cook the rest. ⏱️ 10 min
6. Mash the avocado with salt (and lime if you have it) for a quick guac. 🧒 Kids can do this
7. Cut each one into 3 wedges with a pizza cutter and serve with sour cream, salsa and guac. 🧒 Kids can do this

CHEF'S SECRET

Medium heat, not high: the cheese needs time to melt before the tortilla burns. A light press with the spatula makes them crispy all over.
